

WHAT IS STARTUP CREASPHERE?

Startup Creasphere is the Digital Health Accelerator powered by Plug and Play. Established in 2018 by Roche and Plug and Play becoming the first health focused accelerator in Munich.

We combine Silicon Valley's established innovation ecosystem and expertise from our corporate partners to create the ultimate hub of health innovation in Europe.

Startup Creasphere creates an environment within our global network where corporations and disruptive startups can meet to pilot solutions and services, drive investments, learn and share experiences and facilitate international expansion with the aim of *transforming healthcare together*.
